Overcome Your Biggest Obstacle - You

Written by Whitney Schroer, Wellness Center Director

“I’m too tired,” “I don’t have time,” “It’s out of my way. . .“ These are some of the most common excuses people use when they don’t make it to the gym. But how often do we hear “I don’t have time to watch TV,” or “I’m too tired to go shopping,” or “It’s out of my way to get a soda from the convenience store?” Not very often. At the end of the day, we are our own obstacles when it comes to exercise. Yes, making time to work out can be challenging but once it’s in your daily schedule, it becomes a routine - like going to work, or cooking dinner. Once part of your routine, the excuses that you “don’t have time,” or “it’s out of my way” are no longer an excuse. But what about, “I’m too tired?” Well, research tells us that exercise actually helps reduce daily stress and exhaustion. So there you go! Too tired? Hit the gym and boost your energy! But why do I need exercise? Because it keeps us healthy and happy. If relieving stress isn’t incentive enough, perhaps good heart health is. Exercise reduces blood pressure, cholesterol, and can ultimately reduce your risk of heart disease, and who has time for that? So the moral of the story here is: no, going to the gym may not be your priority, and no, it may not always be convenient; but in the long run, exercise has significant benefits on both your mental and physical health. So overcome that obstacle, and hit the gym!

Hope & Healing

Peggy Glass - Oak, NE

Peggy's journey began in July of 2018 when she experienced a migraine that lasted over two weeks. After a scan at another facility, the results came back abnormal and were followed up with a biopsy. During surgery, over 90 percent of the brain tumor was removed and Peggy returned for her rehabilitation at the facility that diagnosed her tumor. Shortly after, Peggy was transferred to a nursing home where she became unresponsive and was quickly transported to an emergency room. Peggy's husband, Ray, said, **"They told us that we almost lost her."** Peggy needed a breathing tube and it was soon discovered that she had an infection where the tumor had been removed. After a second surgery, Peggy was transferred to a rehabilitation facility where she became detached. **"She wouldn't talk to anyone. Then we moved her to Thayer County Health Services (TCHS) and everything just turned around here. Everything got way better and now we are going home."** Ray and Peggy's grandchildren were able to welcome her upon her arrival at TCHS, and suddenly she went from talking to no one to talking to everyone at TCHS. **"Everything has been great. When she got here she told me, 'I'm going to go home.'"** Five months prior to her discharge, the possibility of Peggy going home and being independent was minimal. On November 21, Peggy was able to go home in time to join her family to celebrate Thanksgiving. Ray credits part of Peggy's success to the rehabilitation staff and their integration into overall hospital care. Instead of having one appointment where Peggy would receive therapy for over an hour, she received it in smaller and more manageable increments. **"This worked great for her. The whole staff is wonderful here; they really worked hard with her."**

Having access to care closer to home increased the number of visitors Peggy was able to have and Ray was able to spend much more time with her, versus spending it on the road. Overall, Peggy has had a great experience during her stay at TCHS. The Speech and Language Therapist, Amanda Carlson, has taught Peggy how to read again and improve her problem-solving skills. **"She (Peggy) knew what she wanted to say but couldn't get it to come out. Amanda has helped her a lot in that way and Peggy has really gotten better"**, said Ray. Abby Walters, Occupational Therapist, and Anne Simms, Occupational Therapist Assistant, helped Peggy re-learn daily living tasks and become more independent. Physical Therapist, Brad Cooper, and Physical Therapist Assistant, Shelby Farnstrom, both worked with Peggy on her mobility and have seen her accomplish so much in a short amount of time. **"Peggy worked really hard with us and with all the hospital staff. She had a goal and she met it and we couldn't be more proud,"** said Shelby. The entire Rehabilitation Department is very proud of Peggy, **"Each time we thought something would pose a challenge or presented her with an obstacle, Peggy rose to the challenge and overcame them."** Ray couldn't define what sparked her improvement, but noted that being closer to home made an impact, **"We would recommend this place to anybody. I think it is marvelous! We can't pinpoint what exactly turned it all around - it could be being closer to home or the fact that I was able to come to visit her every day."** While Ray couldn't pick one reason, Peggy could, **"We ended up coming to Thayer County Health Services and this is where my turnaround happened."**

CEO CORNER

Dave Burd, MHA, FHFMA
Chief Executive Officer

As I write this article, I approach the end of my second year at Thayer County Health Services (TCHS). Amazing things are happening at TCHS, and I am truly privileged to work with such an awesome team. I often talk about TCHS staff being a “family” and am very proud of what has been accomplished because of their expertise and dedication to providing high quality health care services to all of you.

If one thing is for certain, it is that the health care industry is in a state of constant change. While change can be difficult, it often leads to progress and improvements and allows new goals to be achieved. As stated by Pauline R. Kezer, “Continuity gives us roots; change gives us branches, letting us stretch and grow and reach new heights.” Organizations that are stagnant and resist change often become irrelevant and fail.

As a “Hebron boy,” I am passionate about the future success of TCHS and Thayer County. TCHS has undergone several important changes over the last couple of years, which have been directed at achieving an organizational culture that emphasizes positivity, empowerment, and accountability while maximizing the number of high quality health care services that are available close to home.

In early 2018, TCHS adopted a three year strategic plan that includes the following five goals:

- Provide outstanding customer service;
- Strengthen organizational loyalty;
- Promote organizational strengths;
- Improve billing processes; and
- Enhance services available close to home.

Through a lot of time and effort, several operational tactics were completed during 2018 in pursuit of these goals. A few of the accomplishments include the following:

- Implemented the AIDET (acknowledge, introduce, duration, explanation, and thank you) communication framework;
- Improved employee engagement as illustrated by the 2018 survey results;
- Adopted an organizational marketing plan;
- Brought insurance billing back in-house, which is now performed by TCHS staff; and
- Added several additional services including behavioral health, oncology (including chemotherapy), ear, nose, and throat (ENT), and 3D mammography.

While a lot of progress was made in 2018 toward achieving our goals, we will continue to work hard to improve in 2019.

TCHS is blessed to have a significant amount of community support, which is greatly appreciated. The efforts and commitment of the TCHS Foundation and Guild are phenomenal. In my opinion, the support that we receive from all of you is unmatched in other communities. Please know that we will continue to work hard to earn and maintain your trust and loyalty.

If you haven’t been to TCHS in a while, please stop by and see us. We would be happy to give you a tour and answer any questions that you might have. I am confident that you will be impressed with your health care facilities and staff. If you find yourself in need of health care services, please make us your first choice. There truly are amazing things happening at TCHS!

CommonWell

Written by: Michelle Dick, RN, Nurse Informaticist

CommonWell Health Alliance is a not-for-profit association dedicated to the vision that all patient data should be available to patients and providers regardless of where care occurs. Since the emergence of electronic health records, providers have been challenged by the task of moving data between systems and technologies that are not able or willing to work together. CommonWell puts this within reach. By retrieving data from remote points of care that were previously inaccessible, providers can easily access a more comprehensive picture of their patients’ clinical histories. It provides a simple way to positively impact the quality and overall cost of care for providers and patients.

Thayer County Health Services is in the beginning stages of including the ability to interact with CommonWell through Cerner, our electronic health record vendor. About 18 months ago, TCHS joined the Nebraska Health Information Initiative (NeHII), which is a health information exchange designed to serve the state of Nebraska. CommonWell is similar to NeHII except that it is nationwide. Being a part of CommonWell will allow our providers to discover where patients have been seen across remote settings of care, review the clinical data, and select the information that will best improve the ability to care for patients from their available historical data. An example of its usefulness would be: a new patient comes to Thayer County Health Services where one of our providers doesn’t have access to this patient’s allergy list or medication history; utilizing CommonWell, the provider could potentially pull this vital information if the patient has seen a different provider.

More information will be released as the timeline gets finalized for full integration of CommonWell and Cerner at Thayer County Health Services.

Care you know, Care you can trust.

Thayer County Health Services provides prenatal, labor and delivery and well-child care.

“After having our first child at Thayer County Health Services, three things stood out to us. First, it is reassuring to know our providers are minutes away in case we need them. Second, the nursing staff was quick to respond and listened to what we wanted. Lastly, and most importantly, the entire staff was invested in the welfare of our child and continues to be invested to this day.”

- Megan and Cody Pachta discussing the birth of their son at Thayer County Health Services.

Dr. Heinrichs and Dr. Hubl are both Family/OB physicians. Call to make an appointment today!

Thayer County Health Services Recognized as an Abusive Head Trauma/Shaken Baby Syndrome Prevention Education Champion

Thayer County Health Services (TCHS) in Hebron was recently recognized as an Abusive Head Trauma/Shaken Baby Prevention (AHT/SBS) Education Champion. To become an AHT/SBS Prevention Hospital Champion, the hospital signs a pledge, creates or updates an AHT/SBS policy, provides yearly education to hospital personnel, educates parents with evidence-based AHT/SBS materials in accordance with Nebraska Revised Statute 71-2103, and incorporates The Crying Plan into post-discharge patient calls.

“The stresses of parenthood can be intense, but with proper education we are ensuring parents know the right way to deal with their new role,” said Division of Public Health Deputy Director Judy Martin. “This is a transformative initiative that impacts children in their first year of life, but affects the rest of their life.”

Eleven babies’ deaths were associated with Abusive Head Trauma for Nebraska infants between 2010 and 2016. Even one infant death is too many. Many more babies were injured by being shaken, but were able to survive. Abusive Head Trauma (AHT), also known as Shaken Baby Syndrome (SBS), is 100 percent preventable and is a form of physical child abuse to a baby or young child.

“TCHS nurses are passionate about supporting the campaign to strengthen the communities’ awareness of life altering effects of Abusive Head Trauma/Shaken Baby Syndrome. We hope to provide the necessary education and support to prevent children and families from living with the devastating effects of Abusive Head

Trauma/Shaken Baby Syndrome (AHT/SBS)” said Chief Nursing Officer, Jamie Koch, RN, BSN. “Participating in this campaign will also give us as nurses the knowledge and skills needed to inform parents and communities that AHT/SBS is 100 percent preventable.”

The Nebraska Department of Health and Human Services (DHHS) worked with the Nebraska Hospital Association, the Nebraska Chapter of the American Academy of Pediatrics, the Nebraska Perinatal Quality Improvement Collaborative, and the Brain Injury Alliance of Nebraska to launch the Nebraska AHT/SBS Prevention Education Hospital Campaign. The campaign provides evidence-based education and training to parents of newborns as well as birthing hospital staff.

2018 “Caring Kind” Recipient for TCHS

On October 26, 2018, the Nebraska Hospital Association (NHA) recognized 76 hospital workers for their excellence in service by bestowing them with the NHA’s prestigious “Caring Kind” award. For 39 years, the Caring Kind award has been given to nearly 2,300 of Nebraska’s most caring hospital workers. Hospitals across the state each select one Caring Kind recipient from within their respective institutions to be recognized during the NHA Annual Convention. The award honors outstanding health care employees who have demonstrated compassion for patients, cooperation with co-workers and dedication to excellence in their job responsibilities.

The 2018 “Caring Kind” recipient for Thayer County Health Services is Michelle Dick, RN, who works as a Nurse Informaticist. Michelle was recognized at the Caring Kind Luncheon held during the NHA Annual Convention in La Vista.

Michelle’s nomination: Michelle’s background is in agricultural education, so being a nurse was her second career. Michelle and her sister entered the health care field together as Certified Nursing Assistants and Michelle decided to become a licensed practical nurse shortly after that. She worked as a surgical nurse for eight years, during which she obtained her RN. Today, she is the nurse informaticist at Thayer County Health Services in Hebron. She enjoys helping her new “patients”, who are now her co-workers, with the computer system. Her goal is to make the electronic health record work the best that she can for her peers and help make the whole system as safe as possible for patients.

Thank you, Michelle, for being such a great employee and taking such good care of our patients and employees.

NEW FACES AT TCHS

2018 NHA Leadership Institute Graduate

Pictured L to R: Laura Redoutey, FACHE President and NHA Board Member and Cody Pachta, MLS (ASCP) – TCHS Lab Manager and Medical Laboratory Scientist

Cody Pachta, MLS (ASCP), Lab Manager and Medical Laboratory Scientist at Thayer County Health Services recently graduated from the Nebraska Hospital Association Institute, Class XV, in La Vista, NE on October 24, 2018. The NHA Leadership Institute is an initiative that is made up of a comprehensive curriculum that combines core leadership competency working sessions and multiple layers of applied practice in health care. Coursework focuses on the unique challenges and organizational management techniques facing hospitals. The Institute is geared toward providing middle management and up-and-coming leaders within your hospital with the necessary skills to become exceptional leaders and puts them on the path to senior management positions. It is vital for CEOs to develop the leadership pipeline to ensure effective succession planning while enhancing employees’ contributions to the organization.

Each year, approximately 40 health care professionals from across Nebraska come together for a 10-month program designed to instruct, inspire and invigorate. Participants in the NHA Leadership Institute improve their leadership skills and enhance their effectiveness in the health care field while preserving the care and compassion critical to quality health care delivery. Participants also establish peer-to-peer connections and lifelong bonds with classmates and faculty.

The Nebraska Hospital Association Leadership Institute’s mission is to advance the effectiveness of hospitals by providing a quality environment for professional development and support for health care leaders. Participants have expert faculty to guide them through the program. Knowledgeable instructors from Bellevue University are ready to steer participants toward professional success and engage them on the pressing issues hospitals encounter. These experts are drawn from diverse departments of the University including management, human services, leadership development, business administration and health care administration. We at Thayer County Health Services would like to congratulate Cody on all of his hard work!

Thayer County Health Services is excited to have Jarie Sones, APRN, Family Nurse Practitioner, join our medical staff. Jarie resides in Daykin, NE with her husband and four sons. Jarie will see patients at the Medical Clinics. You can schedule an appointment with Jarie by calling the Hebron Medical Clinic at 402-768-7203.

Jarie Sones, FNP

Chemical Spill Safety

An important message from the TCHS DCON and Safety Teams

What to do if you're coming to the Thayer County Health Services Emergency Room after you've been contaminated: Immediately call TCHS at 402-768-6041 to let the nursing staff know you're on your way and explain what accident occurred, type of contaminants involved, amount of contamination, number of victim(s), condition of victim(s), body area(s) affected, your mode of transportation and if you have a driver. Upon arrival at TCHS: WAIT for a Hazmat Team Member to meet you at the Emergency Entrance. ****DO NOT ENTER THE HOSPITAL WITHOUT HOSPITAL STAFF PRESENT**** This will avoid contaminating the inside of the hospital. If at all possible, hose chemicals off in grass before entering the vehicle bringing you to TCHS.

Chemotherapy Caregivers

In 2018, Kendra Else, Specialty Clinic RN and Marla Heitmann, RN, Specialty Clinic Director completed their Chemotherapy Course through Bryan Medical Center in Lincoln, NE and Oncology Nursing Society. To receive this certification, Kendra and Marla had to complete nearly 24 hours of educational classes and spend four days observing the chemotherapy admission process, two at Dr. Warner's, our Oncology/Hematology Specialist, private practice office in Council Bluffs and two days at the CHI Cancer Center in Grand Island. Thayer County Health Services offers chemotherapy services to those who qualify. For an appointment call 402-768-4696.

L to R: Kendra Else, Specialty Clinic RN and Marla Heitmann, Specialty Clinic RN

NEW VISITOR POLICY: Beginning January 1, 2019, in an effort to provide you with the best customer service, Thayer County Health Services will be asking all visitors to sign in at the front desk and receive a visitor badge. Thank you for helping us start the new year off right by providing you with exceptional care and customer service!

Free Movie

Thank you to everyone who attended the Free Movie showings of "The Grinch" and "Indivisible", sponsored by TCHS, and to all of our volunteers who made the day such a success! The turnout was phenomenal, so much in fact, that "The Grinch" needed a second showing that nearly filled the entire theater again. We even had a special guest stop by! TCHS Employees are encouraged to volunteer and give back to the local communities, and in 2018, employees donated over \$38,000 to the Foundation for TCHS.

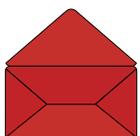

Volunteers L to R: Joni Fisher, Tamara Deepe, Kathy Bauhard, Sue Orvis, The Grinch, Colleen Yoachim, Rita Luongo, and Mary Petersen

New Message in Patient Portal for Upcoming Appointments!

Written by: Michelle Dick, RN, Nurse Informaticist

If you have elected to join the patient portal (also known as HealthLife) and have had a recent clinic appointment at Thayer County Health Services, you might have received a new message in the portal to complete before the appointment. This new functionality, called the Clipboard, allows HealthLife users, with upcoming appointments, to review and enter new information prior to their appointment. This includes medications, allergies, health issues, procedures or surgeries, family history, and general health questions. Reviewing and updating relevant health information before coming to the clinic will streamline your visit. The Clipboard form is accessible when you are logged into your patient portal account in the View Upcoming Appointments list. Click the Begin button to open the Clipboard form to the Overview page. Follow the prompts on the form to complete each section. Once the Clipboard has been completed and submitted, clinic nurses will review it and add the information to your chart. If you have not joined the patient portal yet, but are interested in this option, please mention it during the registration process at your next appointment, or call Michelle Dick, RN, Nurse Informatist at 402-768-4698 to join at any time.

Walking Club

Walking Club is a designated day and time each week for members of the community to come in to the Korff Fitness & Wellness Center and walk on the track, free of charge. Walking club will be hosted in the Korff Fitness and Wellness Center or on the Hebron walking trail, depending on the weather. All community members are welcome to come in and walk, regardless of membership status - *but only during designated walking club times.* **Designated walking clubs time each week: Mondays & Wednesdays 3 p.m. - 4 p.m.** *Each member of the walking club will be required to sign a waiver before participating. Each person participating in the Walking Club will also be asked to sign in each time they come to the Korff Fitness & Wellness Center to walk.* *Days and times for walking club may be adjusted at the discretion of the Wellness Director based on the level of participation, business of the wellness center, and convenience of club members.* If walking club members wish to come in on days and times other than those times allocated for walking club, they may purchase a day pass or wellness center membership to do so. Day passes are \$5, individual memberships are \$32 per month, and family memberships are \$49/month. 6 and 12 month purchasing options are available, as well as discounts for seniors, corporate members, military and disability. For more information or questions, please call the **Korff Fitness & Wellness Center at 402-768-4320.**

Swing Bed

At TCHS, we understand that there are times when a patient no longer needs the acute care they first received in the hospital, yet they may not feel strong enough to return home. For those patients, we offer our Swing Bed Program.

Why Swing Bed?

- Allows family and friends to be more closely involved in the recovery process.
- Less traumatic and threatening to patients emotionally.
- Allows the patient to return to the community, people and support systems with which they are comfortable.
- Offers hope for each patients' continued recovery and return to independent and functional living.
- Rehabilitation is integrated into inpatient stay.

Qualifications?

- Must be related to an acute hospital stay
- Doctor has determined a need for daily skilled care
- Admissions can come from any hospital after a three consecutive night stay as an inpatient in acute care.

Covered Services?

- Nursing care 24 hours a day
- Room and board
- Dietary services
- Rehabilitation services
- Wound Care & IV therapy
- Drugs, medical supplies, & lab

For more information contact: Dianne Meyer at 402-768-4626.

New Service: Chronic Care Management

As a patient with two or more chronic conditions such as arthritis, diabetes, depression or high blood pressure, you may benefit from a new program called Chronic Care Management that Thayer County Health Services now offers to all Medicare patients. This program is designed to improve the coordination of your healthcare with an emphasis on your overall well-being. Ask your doctor about these services or call **Natalie Marsh, RN, Chronic Care Coordinator at 402-768-7203 ext. 711.**

For more information visit: go.cms.gov/ccm.

Services may include:

- At least 20 minutes a month of chronic care management services
- Personalized care plan created by you and a dedicated health care professional to assist you in setting and meeting your health goals
- Coordination of care between your pharmacy, specialist, testing centers, hospitals, and more
- Phone check-ins between visits to keep you on track
- 24/7 emergency access to a health care professional

Foundation Variety Show

Written by: Rita Luongo, Development Director

The Foundation for Thayer County Health Services held their annual Variety Show at the Thayer County Activity Center in Deshler on November 11. Over 225 guests were in attendance for a fun filled evening that helped raise over \$45,000 for the Ambulance Fund. The sponsor for the evening's entertainment was once again the Struve Foundation and this year's entertainment was "The Belles", a mother and daughter music duo from the Omaha area. A catered meal was prepared by Lori Heitmann from Byron, and members of the Thayer Central Cheerleading squad served the meal.

This annual event is held every year in November and is the primary fundraising activity held by the Foundation. In the past, it has helped fund programs or purchased medical equipment for the hospital and clinic. This year, the proceeds were designated for the Ambulance fund to purchase a new transport ambulance for Thayer County. In 2011, Thayer County Health Services took over the medical transport services for Thayer County. Since then, the ambulance crew has provided over 660 patient transports. Of these, 112 were provided in 2017. The hospital's transport ambulance takes patients needing to be transferred to one of the larger tertiary hospitals in Hastings, Lincoln and Omaha. The ambulance crew is made up of highly trained paramedics and EMTs that provide Advanced Life Support (ALS) services or Basic Life Support (BLS) services. These include cardiac monitoring, intubation, administering IV medications, IV monitoring, advanced aid to injuries and oxygen therapy.

The current transport ambulance at Thayer County Health Services was purchased used and is approaching 200,000 miles. The cost to purchase a new vehicle would be well over \$150,000. The cost to purchase a very reliable used ambulance is estimated to be around \$50,000 - \$70,000. Another way to reduce costs will be by reusing the medical equipment in the current ambulance in the new one. At this year's event, the Foundation recognized Steve Anderson for his many years of leadership.

Steve has served as a member of the Foundation board for 20 years and has been the president for the majority of that time. Under his leadership, the Foundation has successfully completed three Capital Campaigns. The support provided by the Foundation has made it possible to improve the healthcare available locally at the hospital and clinic in Hebron and the four medical clinics in Bruning, Chester, Davenport, and Deshler. The Foundation for Thayer County Health Services would like to thank everyone who attended this year's Variety Show for their generous support. If you were unable to attend this year's event, but would still like to give a gift to the Ambulance fund, please send your donation to: Foundation for TCHS, 120 Park Avenue, Hebron, NE 68370. The hospital Foundation is a 501(c)3 and all contributions are tax deductible.

Casual for a Cause

On any given Friday you may have seen our employees wearing jeans. These casual Fridays are actually for a cause, and at TCHS we call them "Denim Days". Each Friday, TCHS employees can donate \$3 to wear jeans and the benefits support a community project or local organization. If an employee is involved or connected to a national organization, proceeds are designated there as well. Employees donated \$300.20 in November for Blue Valley Community Action's (BVCA) food drive and in December, employees raised \$171 for BVCA's Toy Drive. In 2018, TCHS employees donated \$2,215.

Guild Quilt Winner

Written by: Rita Luongo, Development Director

Pictured L to R: Carol Krueger, Guild President, Patrice Hoffman, Quilt Winner, and Kathy Retzlaff, TCHS quilter and Registered Dietitian

Patrice Hoffman from Edgar, NE is the winner of the TCHS Hospital Guild's annual quilt raffle for 2018. Her name was drawn at the November meeting of the Hospital Guild. This year's quilt was a Christmas quilt pieced together by TCHS employees and hand quilted by Janet Voss from Carleton. Proceeds from this year's raffle will go toward the purchase of new medical equipment for the hospital and clinics.
